

## 300 Steel Structure Cable Tray Fixing Support

### Overview

This 300mm cable tray bracket is a fully pre-assembled trapeze-style support, designed to suspend medium-duty cable trays from overhead threaded rod systems. With a 500mm drop and made from pre-galvanised (PG) steel, it ensures strength, speed of installation, and long-lasting. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. Our focus has always been on solutions from the field of cable support systems. 3599070133000The E-KLIPS range offers economical and reliable solutions, particularly for mounting in a wide range of applications such as hall and plant construction, air conditioning and ventilation technology and electrical installations. With E-KLIPS you save the installation of additional support brackets. These cable tray clamps have a maximum allowable load of 300 lbs. They are furnished in zinc plated steel with or without a swivel joint. Electroplated zinc, hot dip galvanised or stainless steel.
