

## Ceramic ferrule accessories

### Overview

Ceramic Ferrules are essential accessories for stud welding operations, providing protection and gas shielding during the welding process. Our Standard Ferrules are typically used as sub-components within fiber optic connectors, but can also be integrated in various specialized applications. They are made of zirconia ceramic, which offers the highest performance and durability of all ferrule material types. It is high temperature resistant. Made from heat-resistant ceramic material, the ferrule acts as a mold around the weld area, shielding it from. Suitable ceramic ferrules are always included in our deliveries. Our comprehensive range includes PF, UF, and RF series ferrules. Ø2.25 mm LC-sized ferrules are compatible with LC. Description GLOBAL PRODUCT INNOVATION: Simple Intuitive operation Handy toolbag (optional).
