

Low Noise Communication Power System for Saudi Arabia's Oil and Petrochemical Industry

Overview

Saudi energy networks are built on a patchwork of communications systems: EDACS and Harris P25 for mission-critical voice, Rohill and Motorola TETRA solutions for field operations, SDH systems and microwave links from Aviat, Nokia, Intercom and Cambium for backhaul. As a leading distributor of communications equipment for oil and gas operations across the region, Xceltra – founded in the United Arab Emirates and with a sales team based in Saudi Arabia, UAE and Egypt – works with system integrators to meet the needs of oil and gas companies. In offering. At Petrozone, we specialize in delivering advanced power system studies and electrical design solutions built to withstand Saudi Arabia's heavy loads, harsh environments, and strict safety standards. Our engineering consultants in Saudi Arabia support oil and gas projects across upstream production. PACE offers comprehensive turnkey solutions in Power, Automation, and Communication tailored for the Petro-Chemical and Energy sectors, covering both onshore and offshore projects.
